Share food and save carbon footprint

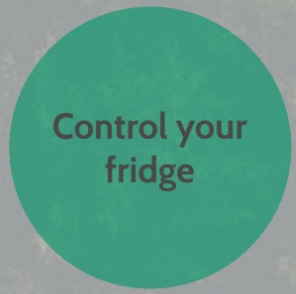
Every year about 1.3 billion tons of food
is wasted. Let's change it!

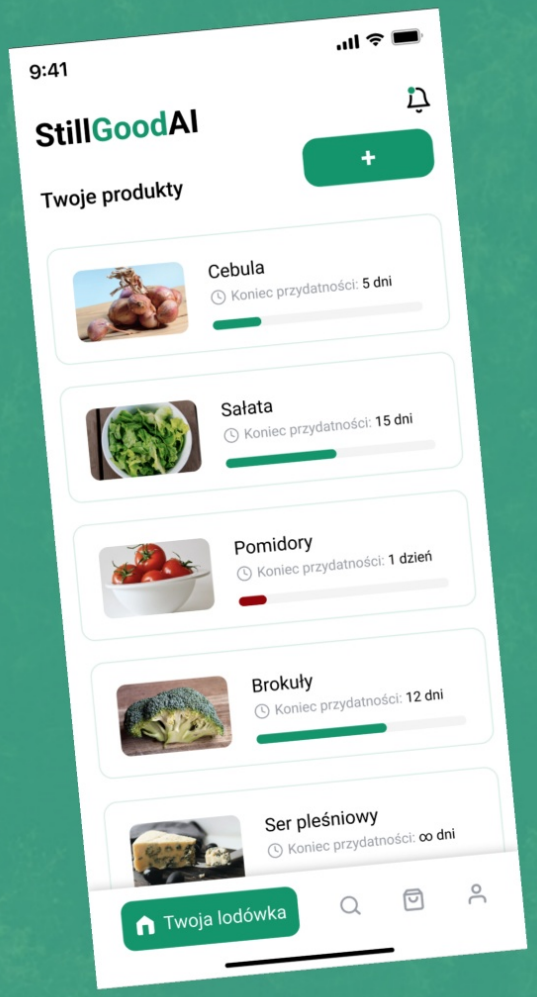
StillGoodAI

Why StillGoodAI ?

In the spirit of reducing carbon footprint zero waste KoniorDynamics decided to help people organize still good to eat food exchange.

How?

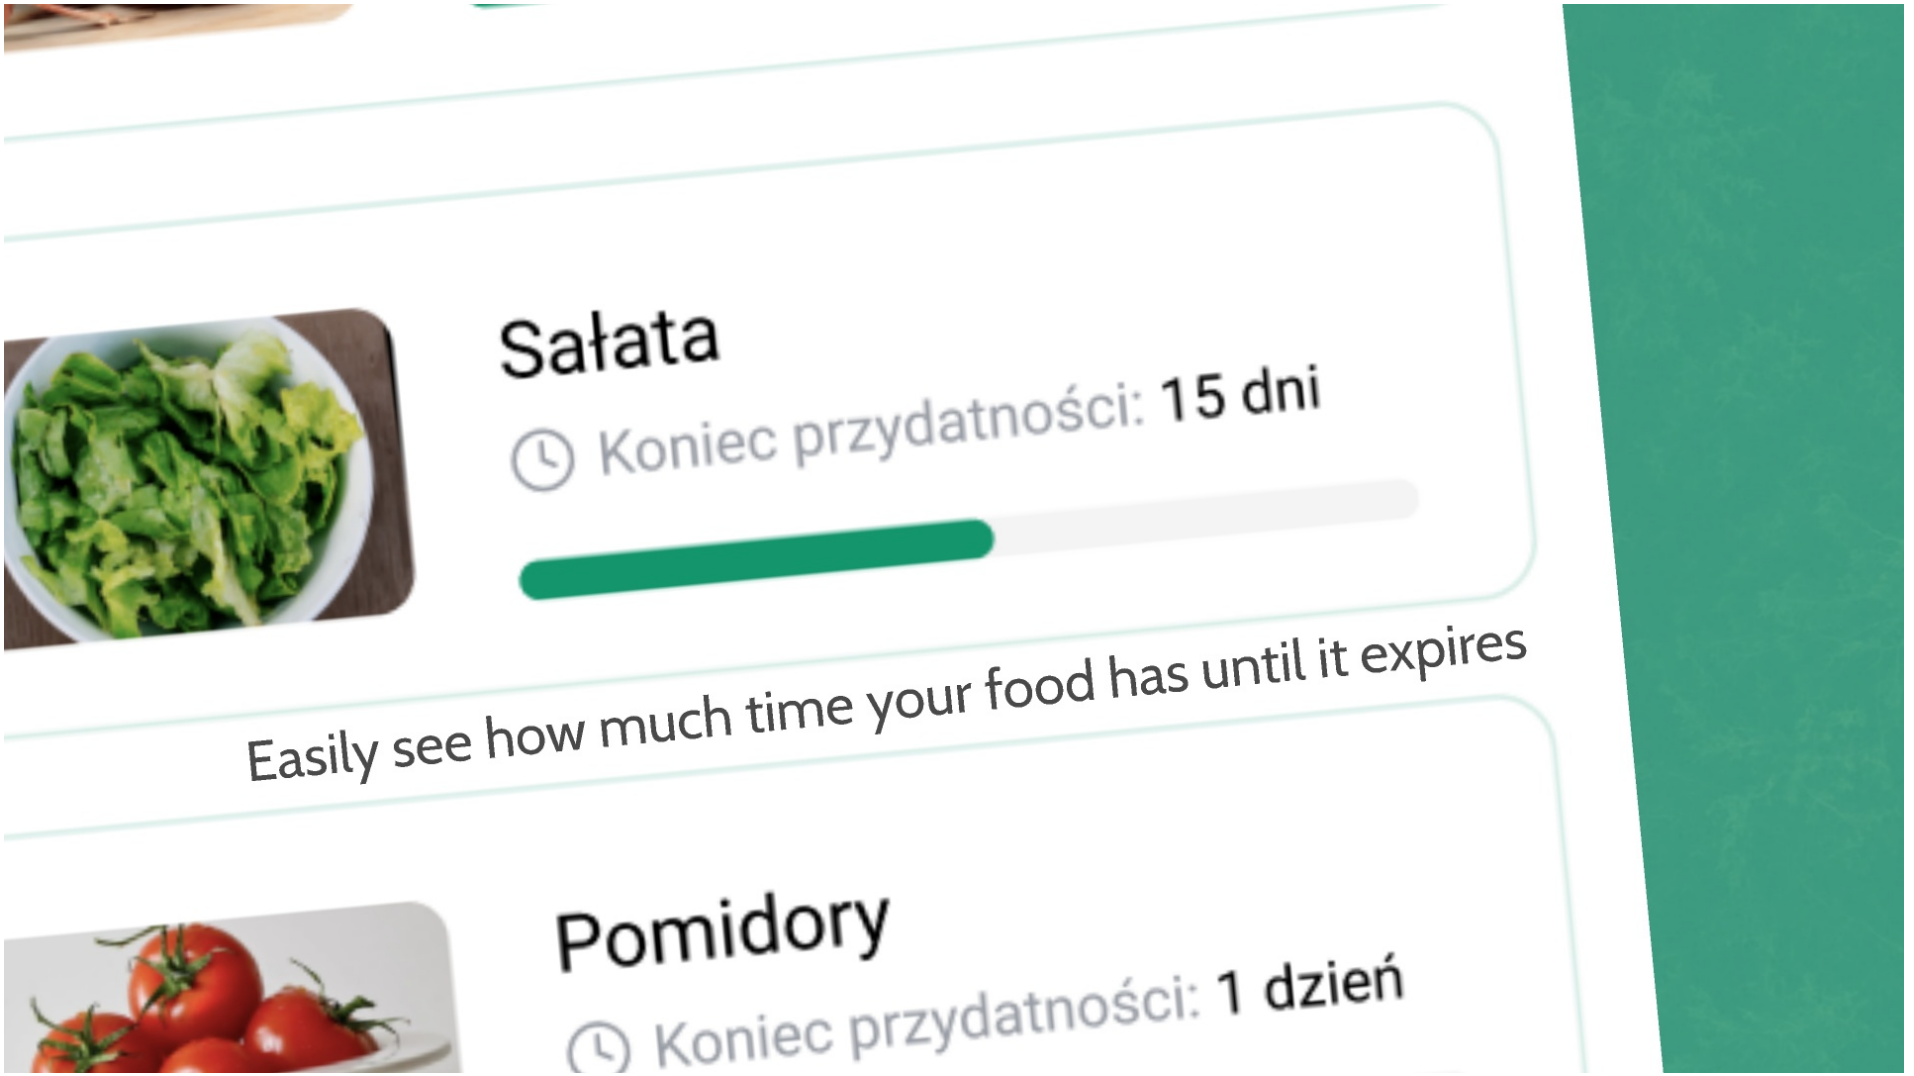




Scan your food

Add your groceries to your virtual fridge with our app. With a simple barcode reader designed by our developers you can control what and when reach its expiration date.

Close to expiry date?

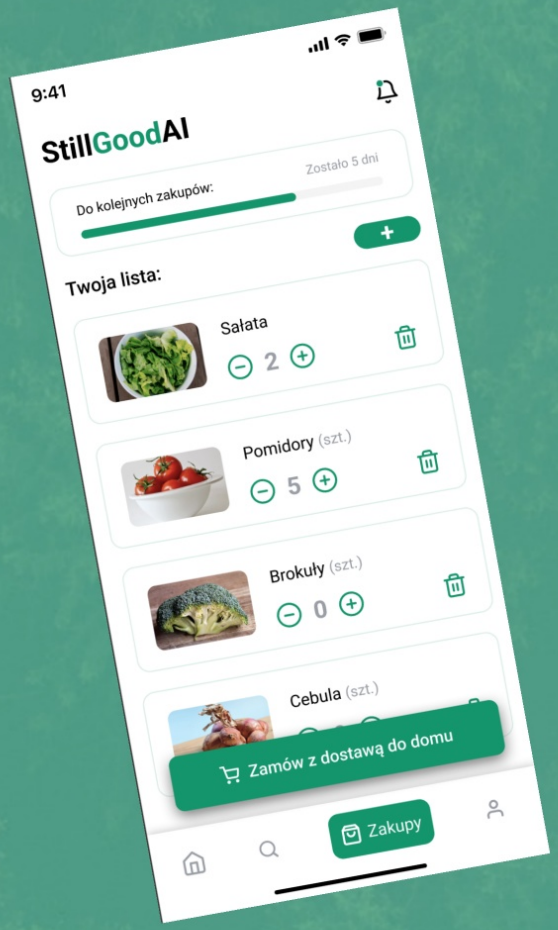


Sałata
Koniec przydatności: 15 dni
Easily see how much time your food has until it expires
Pomidory
Koniec przydatności: 1 dzień

Add a simple ad

People in your area will get a push notification that you have something to give away. Just let them contact you.

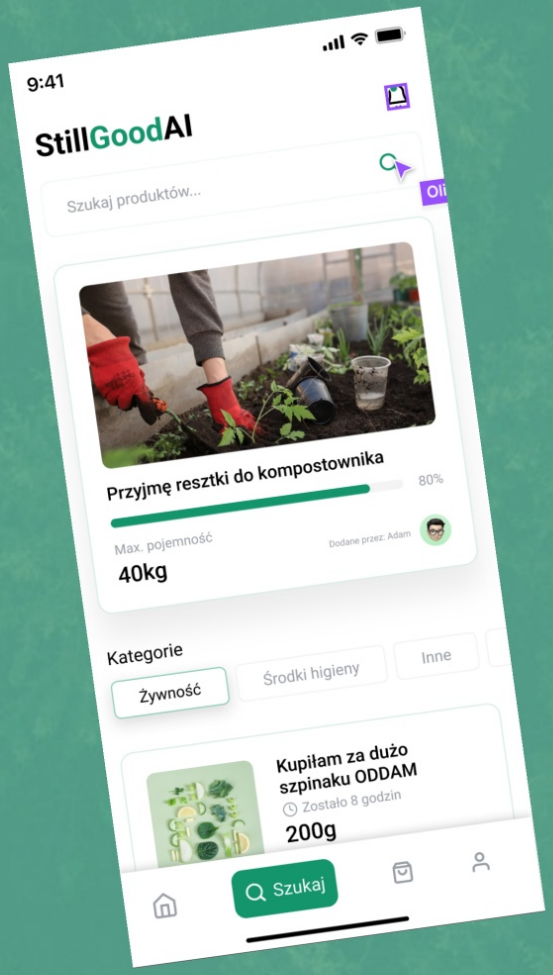
Or...



Let the Artificial Intelligence help you.

Our trained prediction model will help you manage your grocery shopping. It can tell you which products you should buy in smaller quantities in order to waste less food.

Your food still did not make it?



Nothing lost

We will help you find the nearest composting bin. Maybe someone in your neighbourhood has one or your city made one and you did not know about it? Let us take care of it.

Just watch!

How your waste statistics drop down with **StillGoodAI**
